# PROPERTY (TAX) RATES 2020/21

**May 2020**

Version:

Department: **Valuations**

# PROPERTY RATES 2020/21

Property rates are levied in accordance with Council policies, the Local Government Municipal Property Rates Act 2004 (MPRA), the MPRA Regulations, and the Local Government: Municipal Finance Management Act 56 of 2003.

In terms of the amendments to the Property Rates Act, the City is required to:

- Institute new rating categories;
- Align its rebates, reductions and exemptions to the amended legislation:
- Implement the amendments of the MPRA and the new categories simultaneously with a new General Valuation which came into effect on 1 July 2019.

The City has created 11 new property categories. There are 21 property categories in total.

The City has discontinued the Place of Worship and PSI (phase out) categories. These will be dealt with in terms of S 17 of the MPRA (Impermissible rates).

Property rates are based on values indicated in the General Valuation Roll 2018 (GV) with the date of valuation being 2 July 2018. The Rate in the Rand for Property Rates for 2020/2021 financial year are:

| RATING CATEGORY | 20/21 RIR |
|---|---|
| Properties owned by an organisation – not for profit and used as accommodation for the vulnerable | 0.001443 |
| Agricultural Properties | 0.001154 |
| Properties owned by an organisation – not for profit and used exclusively for amateur sport | 0.001443 |
| Properties owned by an organisation – not for profit and used for animal shelters | 0 |
| Business and commercial properties | 0.011540 |
| Cemeteries and Crematoria | 0 |
| Properties owned by an organisation – not for profit and used as an early childhood development facility | 0.001443 |
| Industrial properties | 0.011540 |
| Properties owned by an organisation – not for profit and used as a local community museum | 0 |
| Mining properties | 0.011540 |
| Properties used for multiple purposes | (as per allocation) |
| Nature conservation land | 0 |
| Properties owned by an organisation – not for profit and used for an old age home | 0.001443 |
| Properties owned by an organ of state and used for public service purposes | 0.011540 |
| Properties owned by PBO and used for specified public benefit activities | 0.001443 |
| Public Service Infrastructure properties | 0.001443 |
| Residential properties | 0.005770 |
| Properties owned by a Social Housing Regulatory Authority accredited Social Housing Institution and used for social housing | 0.001443 |
| Vacant land | 0.011540 |

| | |
|---|---|
| Properties owned by war veterans' associations and used for the welfare of war veterans | 0.001443 |
| Properties owned by an organisation – not for profit and used for youth development | 0.001443 |

The rates levied per individual property will be calculated based on the value of that property and multiplied by the rate-in-the-rand set out in this document. Rebates are also taken into consideration.

The definitions of categories are reflected in the Rates Policy 2020/2021 attached as Annexure 5.

## RATES RATIOS

The residential category is used as the base rate. The rates ratio per rating category are:

| Properties owned by an organisation – not for profit and used for youth development | 1:0.25 |

## EXEMPTIONS, REDUCTIONS AND REBATES

### Residential Properties

For all residential properties, the property value appearing on the Valuation Roll, the City will not levy a rate on R300 000 of the property value for rating purposes. The R300 000 comprises of the first R15 000 statutory impermissible rate and R285 000 reduction determined in the Rates Policy.

**Rebates in respect of a category of owners of property are as follows:**

### Indigent owners

In terms of sections 3(3)(f) and 15 of the MPRA all indigents, for rating purposes, will qualify in respect of their primary place of residence for the benefits as set out in this policy and Chapter 4 of the Credit Control and Debt Collection By-Law and Policy and may also qualify for the 100% rebate if the applicant is dependent on pension or a social grant for their livelihood on condition that all other criteria remain applicable. The cumulative rebates shall not exceed 100%.

### Owners who are dependent on Pension or Social Grants for their livelihood

In order to qualify for a rebate, this category of owners must meet the following criteria:

a) be a natural person;
b) the property must satisfy the requirements of the definition of Residential Property;
c) be the registered owner of the Residential Property; and
d) on 1 July of the financial year:
    i. occupy the property as his/her primary place of residence, provided that where the owner is unable to occupy the property due to no fault of his/her own, the spouse or partner or children (including minor children) may satisfy the occupancy requirement;

    ii. With regards to pensioners, the applicant must be at least 60 years of age; or if the owner turns 60 during the year the rebate will be granted on a pro rata basis from the date on which the applicant turned 60;

    iii. be in receipt of a gross monthly household income not exceeding R17 500 (seventeen thousand five hundred Rand) and proven by the submission of the minimum of three months bank statements from all financial institutions or, if the person does not have a bank account, such proof as the City may require to substantiate the person's level of gross monthly household income.

**The gross monthly household income and rebate for the 2020/2021 financial year is as follows:**

| Gross Monthly Household Income | | % Rebate |
|---|---|---|
| R 0 | R 4 500.00 | 100% |
| R 4 501.00 | R 6 000.00 | 95% |
| R 6 001.00 | R 7 500.00 | 90% |
| R 7 501.00 | R 9 000.00 | 80% |
| R 9 001.00 | R 10 500.00 | 70% |
| R 10 501.00 | R 12 000.00 | 60% |
| R 12 001.00 | R 13 500.00 | 50% |
| R 13 501.00 | R 14 500.00 | 40% |
| R 14 501.00 | R 15 500.00 | 30% |
| R 15 501.00 | R 16 500.00 | 20% |
| R 16 501.00 | R 17 500.00 | 10% |

**Owners of property situated within an area affected by any other serious adverse social or economic conditions**

At the future discretion of the City, owners of properties may be granted a rebate as a result of the Covid-19 pandemic where serious adverse social and economic conditions prevail. The rebate will only be granted in terms of conditions to be determined by the Municipal Council. If the Municipal Council does determine the conditions for the rebate, the financial implications in respect of income foregone must be taken into account and reflected in an Adjustment Budget.

There are no further exemptions, reductions or rebates, other than those referred to in the Rates Policy 2020/2021.

**BUDGET IMPLICATIONS**

The Budget for 2020/2021 has been balanced using the estimated income from levying the rates in this report.

Provision has been made in the Budget for 2020/2021 for the income foregone arising from the reductions and rebates as detailed in the Rates Policy 2020/2021.

# CITY IMPROVEMENT DISTRICTS ADDITIONAL RATES

**May 2020**

Version:

Department: **Urban Management**

# CITY IMPROVEMENT DISTRICTS (CIDs) ADDITIONAL RATES 2020/2021

Each CID must submit a budget to the City annually in terms of the Special Rating Areas (SRA) By-Law. This budget must be in accordance with the approved business plan of the CID and be approved by the company members at an Annual General Meeting (AGM) or Members Meeting. The budgets for 2020/21 for all existing CIDs included in the table below were all approved in terms of this requirement prior to submission to the City for inclusion in the City`s budget document. The CIDs have a 5-year budget as per their approved Business Plan and as such cannot anticipate future development or valuation fluctuations due to successful appeals etc. Communities are informed from the outset regarding the impact of valuation fluctuations on CID budgets and also individual contributions. Accordingly, various scenarios materialize in later years where the CID budget may be spread over a broader community thus reducing the burden on individuals. Similarly, successful appeals could result in a bigger than anticipated burden on other individuals due to the valuation base reducing concomitant to annual budget increases. The impact on individuals is extensively modelled to ensure that it does not exceed the original approved impact as per the 5-year budget and if greater than the budget growth it remains within the threshold of affordability and sustainability.

The amount of any additional rate levied in a CID area is determined by Council. The additional rate is a debt owing to the City and is payable and collected in the same manner as any other property rates imposed by Council. Two different categories of property are identified when imposing an additional rate in a CID: Residential and Non-residential. The SRA Policy, as approved by Council, further clarifies that any non-residential property with a municipal valuation of 50% or more of the total municipal valuation of the CID it is located in will not fund more than 25% of the budget.

All the CIDs approved their budgets unanimously at their Member's meetings. Twelve CIDs (Airport Industria, Cape Town Central, Claremont, Elsies River, Fish Hoek, Groote Schuur, Maitland, Montague Gardens Marconi Beam, Parow Industria, Somerset West, Wynberg and Zeekoevlei Peninsula) have applied for a new 5-year term commencing on the 1st of July 2020. At their AGMs their members voted unanimously in favour of the continuation of the CIDs. These are included in the table below subject to Council approving a further term.

Four applications were received for the establishment of a CID in their area and are included in the table below subject to Council approving the applications (Boston, Lower Kenilworth, Scott Estate & Baviaanskloof and Welgemoed).

The additional rates for 2020/21, expressed as Rand-in-the-rand and based on the total property valuation per CID, are submitted for Council approval.

# 1. ELECTRICITY GENERATION AND DISTRIBUTION

## 1.1 General

The proposed revisions to the tariffs have been formulated in accordance with the City of Cape Town Tariff and Rates Policy and comply with Section 74 of the Municipal Systems Act.

In terms of section 75A of the Local Government Municipal Systems Act, any fees, charges or tariffs which a municipality may wish to levy and recover in respect of any function or service of the municipality, must be approved by a resolution passed by the municipal council with a supporting vote of a majority of its members.

The Electricity Regulation Act requires that proposed revisions to the electricity consumption based tariffs be submitted to the Regulator for approval prior to implementation. Provisional approval will therefore be requested with the express proviso that any alterations required by Council will be submitted to the Regulator as soon as possible.

The Consumptive Tariff Schedule includes a note indicating that the tariffs are applied in accordance with the terms and conditions as contained in the Electricity Tariff Policy.

On 9 March 2020, NERSA approved a tariff increase to direct Eskom customers of 7.86%. This then equates to a 6.9% increase to Municipalities. On 14th May 2020 NERSA issued a guideline increase for the 2020/2021 financial year of 6.22%.

The above items as well as amendments to the Support Services Recharges and other internal City-determined costs result in the Electricity Generation and Distribution Department requiring a revenue decline from Sale of Electricity of 1.1% in order to meet the budgeted Operating Expenditure and, when coupled to the expected negative sales growth of -1.5%, results in a tariff increase requirement of an average of 4.83%. Subsequent to this, as a result of COVID-19 lockdown and the resulting economic impacts, it is predicted that sales growth of -6.5% is more likely (an additional 5% in lost sales is anticipated), however, given the uncertainty of this, the tariffs were not amended to reflect this at this time although further budget amendments were made in order to balance the budget.

These increases are in line with the guidelines established in the Medium Term Revenue and Expenditure Framework.

Present electricity tariffs were approved by Council on 29 May 2019 and by NERSA on 10 July 2019, and were implemented with effect from 1 July 2019.

## 1.2 Proposed Electricity Tariff Policy Changes

It is proposed that the Tariff Policy for Electricity Generation and Distribution is amended as follows for the 2020/21 Financial Year:

- Clause 4.2.7 – Clause added to allow for the option for commercial customers to retain the green attributes of energy fed into the grid, and to be compensated at a different rate than if these attributes are transferred to the City.
- Clause 4.2.8 – "Council approved timetable" amended to read "1 September 2021" in order to provide the timetable by which all remaining Large Power User customers will migrate to the relevant Large User tariff.
- Clause 4.2.11 added to provide for the new Network Access Charge for relevant customers.
- Clause 4.2.13 – added "/or" to allow for specific industry types as approved in terms of the Investment Incentives Policy to access the benefit without the requirement for those industries to be located in a particular geographic area.
- Clauses 4.3.3 and 4.3.4 – removed the link to a deleted clause in the Credit Control and Debt Collection Policy, and now specify the relevant property valuation limits in the Tariff Policy.
- Clause 5.1 amended to reflect the latest draft implementation rules for Wheeling.
- Clause 7.1 amended to reflect the legislatively required approvals for the Regulated portion of the tariff (i.e. that portion of the tariff approved by both Council and NERSA)
- Clause 7.2 added to reflect the legislatively required approvals for the Unregulated portion of the tariff, as well as the requirements regarding any limitations that may be placed on this portion of the tariff.

### 1.3 Consumptive Tariff Proposals

For the 2020/21 financial year, the following is proposed for the Residential tariffs.

No changes are proposed in terms of eligibility, or structure, of the standard Residential Tariffs, nor are there any changes proposed in terms of the Free Basic Electricity allocation. All components increase by 4.83% across all three tariffs.

For the Residential Small-scale Embedded Generation 1 Tariff the Service Charge and Feed-in tariffs are retained at their current levels, with the Block 1 energy rate increasing by 7.18% to compensate for the loss of revenue brought about by the unchanged Service Charge and the Block 2 energy rate increases by the average of 4.83%. A new SSEG Incentive component of 25c/kWh is added, payable by the City for each kWh generated onto the grid for a 12-month period for all existing customers on this Tariff.

The Residential Small-scale Embedded Generation 2 Tariff is proposed to increase at the average of 4.83% across all consumption components, With the Feed-in tariff being set at 73.24c/kWh (excluding VAT), which is based on the lesser of the REIPPPP4 averaged costs for solar and wind energy or the estimated offset Eskom purchase cost as determined. The SSEG Incentive component is also added to this tariff, and will be applicable for a 12 month period for all existing and new customers on this Tariff.

All components of the Small Power User 1 and 2 Tariffs increase by the average amount. Any small variation to this is the result of rounding. A new Small Power User 3 tariff for very small supplies (less than 250kWh per month consumed) is introduced which does not have a service charge but a higher single energy charge. The intention behind this tariff is to provide for small organisations where energy consumption is low or intermittent in use, that are typically not for profit or provide accommodation for the vulnerable. The introduction of this tariff will be tested over a period and further restrictions to accessing this tariff may be applied. This tariff is also only applicable via a prepayment meter.

All Large User Time of Use Tariffs increase by the average of 4.83% across all components. Any variation to this that exists is once again the result of rounding.

The Large Power User Tariffs (non-Time of Use), as well as the Medium Voltage Time of Use Tariff this year only receive the average increase of 4.83%, and no longer get a higher than average increase. It is envisaged that nearly all customers remaining on these tariffs would benefit from changing to the applicable Time of Use tariff. Both the Large User HV Time of Use Tariff, and the Large User MV Time of Use Tariff (as well as all related tariffs) are now proposed to feature a split demand charge. The first component of this split is the Energy Demand Charge, which is the traditional, measured demand as previously. The second and new component, is the Network Access Charge, which is charged in accordance with the Notified Maximum Demand of a customer, as this is the amount of network infrastructure that has to be reserved for that customer, and non-utilisation of that reserved portion has previously not been charged for, but has resulted in incurred costs. For all MV customers, this Network Access Charge is set at zero for the coming year, with the Energy Demand Charge being increased by 4.83% over the existing period Demand Charge, as a measure to introduce the concept to the existing customers. For the HV tariff, where no customers currently exist, values (as per the tariff schedule) are attached to these components.

The Standard (now known as “Green”) Non-Residential Small-scale Embedded Generation Feed-in Tariff remains unchanged, as the philosophy behind this tariff is now the same as the new Residential Small-scale Embedded Generation Feed-in Tariff, but it was felt that this would be reduced over time, rather than through a reduction, as this tariff has been used to develop the business case for these systems. This tariff also by default transfers the green attributes of the energy fed into the grid to the City. The SSEG Incentive is added here too, and will be applicable for a period of 12 months for all new customers. A new “Black” Feed-in tariff is introduced at a lower level for such customers who wish to retain the green attributes of this energy.

The design philosophy for the Investment Incentive Tariffs of providing the benefit through excluding the Contribution to Rates amount from these tariffs continues. As a result of a recalculation of this amount, these tariffs will see varying increases in terms of percentages, depending on what proportion of the tariff component the Contribution to Rates forms.

The design philosophy for the Wheeling Tariffs has been reconsidered according to the latest implementation framework. What was previously known as two separate Wheeling Supplier Tariffs (Internal and External) is now rationalized to a single Wheeling Use of System Tariff. This tariff will be applied to the Customer, and is based on the Large User Medium Voltage Time of Use Tariff less the Eskom WEPS amount (this is the amount by which any Eskom supply point account would be adjusted by were such an agreement to encompass such a supply point). The Wheeling Use of System tariff includes the Service Charge, the Demand Charge and the newly introduced Network Access charge. The Wheeling Customer Tariff changes to reflect the energy component only, i.e. the difference between the Large User Medium Voltage Time of Use Tariff and the Wheeling Use of System tariff. The Large User Medium Voltage Time of Use Tariff increases by the average 4.83% across all components.

It must further be noted at this point that the rules and processes for Wheeling have not yet been finalized, the tariffs therefore will only become effective once the outstanding items have been resolved and Wheeling is implemented.

The tariff for Street Lighting and Traffic Signals energy increases by 4.82%.

### 1.4 Miscellaneous and Street Lighting Tariffs

The Miscellaneous Electricity Tariffs are levied to recover the costs of services provided directly to individual customers.

In terms of the Miscellaneous Tariff Schedule, each tariff was revisited in terms of its relevance and revenue generating potential.

The following tariffs are added to the Schedule for the 2020/21 financial year:
- Item 8.9 Tariff comparison done from AMI infrastructure over 1 month
- Item 21 Compensation payable by ECA Licensee for use of City infrastructure

The following item on the Schedule is deleted for the 2020/21 financial year:
- Tariff or load profile investigation – requiring equipment and personnel. This item is now covered via the AMI infrastructure, and as such is no longer necessary.

The following items on the Schedule are dependent on the Consumption Based tariffs, and are adjusted in accordance with the current tariff increase estimate of 4.83%:

- Item 10.6 will increase by the same amount as the Small Power User 2 energy charge.
- Item 13.1, Bulk Residential and Small Power User deposits increase by the average
- Item 13.2, Deposits for Large and Time of Use agreements decrease by 50%, in order to facilitate the migration of these customers from the non-Time of use Large Power User tariffs to the Time of Use Large User tariffs.
- Item 14.1, Unmetered Tariffs are recalculated in line with the proposed Small Power User 1 energy rate.
- Item 3.1 on the Street Lighting Schedule will increase by the average consumption tariff increase. It should also be noted that the usage of Green Energy Certificates is compulsory.

The following tariff was reassessed in terms of the actual cost of supplying the service:

- Item 8.8 Replacement of magnetic card for PPM system.
- Item 10.6, Energy fee for Hired Kiosks and meter boxes. This tariff changes from the SPU2 tariff to the new SPU3 tariff, per the motivation for the new tariff.

The following tariffs remain unchanged, and are mostly free services:

- Items 5.1, 5.2 and 5.3, quotation fees (remain a free service).
- Item 7.2 Retrofitting of existing credit meter with 60A single phase PPM as part of the meter replacement programme: reviewed in terms of the actual costs incurred and no increase is required at this time.
- Item 8.2 Accuracy test of residential meter on site: reviewed in terms of the actual costs incurred and no increase is required at this time.
- Item 11.1, temporary hire of MV switchgear equipment for breakdowns (these tariffs are dependent on the replacement value of the equipment only)
- Item 15.1, Provision of the Electricity Supply By-law (available as a free download from the City's website)

The following item was reviewed in terms of a complete change in methodology, and now reflects the effective cost of the green attributes of the energy provided, as based upon the full carbon tax that would apply to coal-generated energy:

- Item 17, Green Energy Certificates.

The remaining tariffs increase by CPI. Note that in some instances the rounding for VAT purposes may result in a slightly above or below increase for some items.

The increases are in accordance with the guidelines established in the Medium Term Revenue and Expenditure Framework.

Revenue received from these tariffs for the previous three years compared to the budgeted income for the same period are as follows:

| Year | Budget | Actual |
|---|---|---|
| 2017 | R 107 673 025.25 | R 129 872 068.81 |
| 2018 | R 100 971 922.61 | R 162 400 295.44 |
| 2019 | R 99 780 003.38 | R 136 871 167.34 |

The primary factors in the variation between budget and actual for the three periods are Shared-network Charges (shown as Development Contributions on the financial statements), positive variations of R31.5m in 2017, R46m in 2018 and R19.2m in 2019, and positive variations for Fines, Penalties and Forfeits of R17.6m in 2018 and R19.9m in 2019. These two items are completely dependent on customer requirements/actions, and prudent budgeting would be to consider these variances as being anomalies, given that any variations are completely outside the control of the City. It would also be incorrect to infer that, especially in the case of the Shared-network Charges, that this equates to additional surplus, as it is related to network expansion/strengthening work that had to occur, and therefore additional expenditure was also incurred, with the net result of zero.

## 2. WATER AND SANITATION

As customers will be aware, the drought had a permanent impact on the overall consumption levels as well as consumption in the high usage steps used for cross-subsidisation. To stabilise the tariff structure, changes were already approved during the 2018/19 budget cycle to ensure that the cost of delivering the service was recovered to protect the sustainability of the service.

During the 2019/20 budget cycle, the City also effected the change from the 7 levels of reduction tariffs to 5 new levels of tariffs in line with the new water strategy. These 5 levels of tariff have been maintained for the 2020/21 financial year. The volumetric sets applicable to each of the levels have however been refined for the latest trends in the demand curve. It is also important to emphasise that as from the 2020/21 financial year, these tariff levels will be de-linked from the promulgated restriction levels. The tariff level will be aligned to the appropriate consumption set to ensure recovery of the cost to deliver the service.

Level 1 water and sanitation tariffs are recommended for implementation from 1 July 2020. There is a 4.5% tariff increased proposed on Level 1 tariffs and this increase is also applicable for the no restriction and emergency levels. The proposed 2020/21 increases for level 2 and level 3 tariffs are both 6.5% for water and 6.5% and 8% respectively for sanitation.

The proposed increases are predominantly due to the water augmentation plan to ensure security of water supply, upgrades and extensions to the wastewater treatment plants, water demand management initiatives, ensuring the management of assets at appropriate levels, sustain and enhance the maintenance programs as well as supplying water and sanitation at appropriate compliance, capacity, skills, service delivery and responsiveness levels. Within the context of continued service delivery, the increase below CPI, recommended for implementation from 1 July 2020, have predominantly been achieved via the phasing of the New Water Plan as well as alignment of the operational cost associated with the latest water consumption levels.

The Bulk Water tariffs have also been adjusted to align with projected volumes and are reflected in the consumptive tariff schedules. The miscellaneous tariffs are levied by Water and Sanitation for the provision of various services by the Department. Examples of these services are the installation of water connections and the testing of meters. The aim of these tariffs is to recover the cost of the provision of a particular service to each customer. There is a proposed 5.10% increase on miscellaneous tariffs. The proposed consumption tariffs as well as miscellaneous tariffs are shown in the attached Tariffs and Charges Book as Annexure 6.

Notable changes and additions in the tariff policy and tariff schedules for the 2020/21 financial year include:

**Consumptive:**

- The de-linking of tariff levels from the promulgated restriction levels. The tariff level will be aligned to the appropriate consumption set to ensure recovery of the cost to deliver the service.
- Assistance to Charities and Non-Profit Organisations including animal shelters / early childhood development facilities / youth development facilities / local community museum facilities via a reduction in the volumetric tariff as well as not applying the fixed basic charge to this category.
- Assistance to the category where accommodation is provided to the vulnerable (including Homeless Shelters / Children's homes / Homes catering for the health of physically and mentally challenged individuals / old age homes (as defined)) via a reduction in the volumetric tariff as well as not applying the fixed basic charge to this category.
- Treated Effluent Users – No fixed basic charge during periods when treated effluent is not provided.

**Miscellaneous:**

- The implementation of a Permit Application Fee related to industrial effluent for the direct disposal at a designated facility.

## 3. SOLID WASTE MANAGEMENT

The Solid Waste Tariffs are levied to recover costs of services provided directly to customers and include refuse collection fees, disposal fees, compost sales, weighbridge fees and other ad hoc services. An average increase has been applied on the Consumptive Tariffs for Collections of 3.5% & Disposal of 5%. An average increase has been applied on the Miscellaneous Tariffs for Cleaning of 5.10%.

The following amendments to the Tariff Policy are proposed:

- **Tariff Policy Changes**

  - Item 7.1.2.2 - New Rebates for Formal Households (excluding Sectional Title Schemes) – receive a rebated waste collection service based on property value as follows:
    - 7.1.2.2.1 - value from R1 and up to R300 000 receive a 100% rebate – this excludes Housing properties valued at R0, which will continue to receive 100% rebate;
    - 7.1.2.2.2 - valued between R300 001 and up to R350 000 receive a 50% rebate;
    - 7.1.2.2.3 - valued between R350 001 and up to R500 000 receive a 25% rebate.

- **Tariff Book**

  - Changes to the Rebated services provided are as follows:
    - 1.3.1.1.1.2 – this category will now include properties from R1 to R300,000 and will receive a100% rebate;
    - 1.3.1.1.1.3 – The category R100,001 to R150,000 has been deleted as it is no longer relevant;
    - 1.3.1.1.1.4 – this category will now include properties from R300,001 to R350,000 and will receive 50% rebate.

Failure to implement the proposed Tariff increases on 1 July 2020 will result in under recovery of Revenue required to meet anticipated expenditure for the 2020/2021 financial year.

## SECTION A - INTRODUCTION

## DEFINITIONS

In addition to the definitions contained in the *MPRA* and the *Rates By-Law*, the following words and phrases bear the meanings assigned to them below:

**"Accommodation for the vulnerable"** means a property used for:

- A shelter for homeless adults;
- A shelter for the abused and/or victims of violence;
- A children's homes which cares for homeless children as stipulated in the Children's Act, 38 of 2005 used primarily for the accommodation of children
- A home accommodating and catering for the health of physically or mentally challenged individuals

**"Agricultural property"** means property that is used primarily for agricultural purposes but, without derogating from *section 9* of the *MPRA*, excludes any portion thereof that is used commercially for the hospitality of guests, and excludes the use of the property for the purpose of eco-tourism or for the trading in or hunting of game;

**"Animal Shelter"** means a property used for the protection, rescue and rehabilitation of domestic animals;

**"Audited Financial Statements"** Means an annual report issued by an independent registered auditor or a person certified by a registered body or a certified bookkeeper expressing an opinion on the company's financial statements. This includes a statement of financial position; a statement of financial performance; a cash-flow statement; other statements that may be prescribed; and any notes to these statements;

**Business and Commercial property"** means:

(a) Property used for the activity of buying, selling or trading in commodities or services and includes any office or other accommodation on the same property, the use of which is incidental to such activity;
(b) Property on which the administration of the business of private or public entities takes place;
(c) Property used for the provision of commercial accommodation;
(d) Property used for education purposes;
(e) Property used by the State or any organ of State; or
(f) Property that does not fall into any other category of property;

**"Cemeteries"** means properties used for the burial of human bodies and storage of cinerary urns;

"**Crematoria**" means properties used for the cremation of human bodies

**"CFO"** means the Chief Financial Officer of the City, being a person designated in terms of *section 80(2)(a)* of the *MFMA*, or his/her nominee;

"**City/Council**" means the City of Cape Town, a municipality established by Government Notice No 479 of 22 September 2000 issued in terms of the Local Government: Municipal Structures Act 117 of 1998;

**"Early Childhood Development Facility"** means a property used as an Early Childhood Development Facility registered with the Department of Social Development, Western Cape Government.

**"Exclusion"** in relation to a City's rating power, means a restriction of that power as provided for in *section 17* of the *MPRA*;

**"Exemption"** in relation to the payment of a rate, means an exemption granted by a City in terms of *section 15* of the *MPRA*;

**"Gross monthly household income"** means the gross monthly household income of both the owner and spouse or partner including any party in a co- habitation relationship from all sources, including but not limited to salaries, wages, dividends, pensions, grants, rentals, board and lodging, interest received, and any investment income. Care dependency grants, foster child grants and child support grants are specifically excluded from gross monthly household income. This income definition is specific to the Rates Policy and does not relate to any other external definitions of income;

**"Guest House / Bed and Breakfast"** means a property where more than 40% of the bedrooms are used or available to be used for providing accommodation for temporary visitors at a fee;

**"Industrial Property"** means property used for a branch of trade or manufacturing, production, assembly or processing of finished or partially finished products from raw material or fabricated parts in respect of which capital and labour are involved, and includes–
(a) The processing of raw products and resources on the property;
(b) The storage and warehousing of products on the property; and
(c) Any office or other similar facility on the same property, the use of which is incidental to such activity;

**"Local Community Museum"** means a property that is used as a museum that concentrates on the history and culture of the immediate local community within which it is situated;

"**MFMA**" means the *Local Government: Municipal Finance Management Act, 56 of 2003*;

"**MPRA"** means the *Local Government: Municipal Property Rates Act, 6 of 2004* as amended from time to time as well as regulations (MPRR) published in terms of the *MPRA*, which is referred to as the "*Property Rates Act*" in the By-law but for the purposes of brevity, shall be referred to as the "*MPRA*" in this Policy;

**"MPRR"** means the *Municipal Property Rates Regulations;*

**"Nature Conservation Land"** means any property:

- Referred to in S 17(1)(e) of the MPRA, or
- exhibiting sensitive ecological areas/features, identified by the City's Environmental Management Department as such, for that portion of land exhibiting these sensitive features, provided that the land is either leased to the City for nature conservation purposes or where there is a written agreement, with the City CapeNature or SANParks, for the conservation management of the relevant portion of land where the land is conserved in perpetuity, or
- Private property contracted into the Table Mountain National Park in terms of the Protected Areas Act, from the commencement date of the agreement between the owner of the property and SANParks and for each year that the owner foregoes beneficial occupation/use of the land pending formal gazetting of the agreement;

**"Non-Residential Property"** means all properties other than those defined as residential but including all vacant land. In the Tariff Policy this category could be further refined in terms of Commercial and Industrial properties as in the Tariff Policy it becomes necessary to differentiate between these users;

**"Old Age Home"** means a property specifically used for the accommodation of retired people.

**"Organisation - Not for Profit"** means;

- a Non Profit company defined as such in terms of Section 1 of the Companies Act 71 of 2008,
- a registered Non-Profit Organisation
- a Public Benefit Organisation
- a Trust, where none of the Trustees are beneficiaries and the Trust operates for a public benefit
- a voluntary organisation operating for a public benefit
- a religious organisation undertaking a public benefit activity

**"Primary Place of Residence"** means a residence –
(i) in which a natural person ordinarily resides as his or her main residence;
(ii) is used mainly for residential purposes, and
(iii) is used mainly for domestic purposes;

"**PBO / Public Benefit Organisation**" means an organisation conducting specified public benefit activities as defined in the *MPRR;* and registered in terms of the *Income Tax Act* for tax reductions because of those activities;

**"Pension"** includes, but not limited to, a pension fund, retirement annuity, income annuity, retirement fund or other income arising out of any retirement funding investment income received (including rental income.)

**"Ratepayer"** means a person or entity that is liable, in terms of the *MPRA*, for the payment of rates on property levied by the City;

**"Rate/s"** means a municipal rate as defined in *section 1* of the *MPRA* and includes any additional rates on property as envisaged in *section 19 (1)(d)* and *section 22* of the *MPRA***;**

**"Rates By-law"** means the *City of Cape Town: Rates By-law*;

"**Rebate**" in relation to a rate payable on a property, means a discount granted in terms of *section 15 of the MPRA* on the amount of the rate payable on the property;

"**Reduction**" in relation to a rate payable on a property, means the lowering, in terms of *section 15 of the MPRA* of the amount for which the property was valued and the rating of the property at that lower amount;

"**Relief**" means exemptions, reductions or rebates that may be granted by the City in terms of this Policy;

**"Residential Property"** means a property of which the primary use is for residential purposes without derogation from *section 9* of the *MPRA*; and includes improved property, that is:
- used predominantly (60% or more) for residential purposes based on either the size of the house or the size of the improved part of the property (depending on the non-residential use), and includes any adjoining/adjacent developed property registered in the name of the same owner and used together with such residential property as if it were one property. The physical configuration of the two properties must be such that the two properties cannot be dealt with as separate viable economic units and can only function as if they are one entity. (Any such grouping shall be regarded as one residential property for rating purposes and for clearance application purposes); or

- a unit registered in terms of the *Sectional Titles Act, 95 of 1986*, used predominantly (60% or more) based on the size of the section (depending on the non-residential use) for residential purposes, and includes any unit in the same sectional title scheme registered in the name of the same owner which is used together with the residential unit as if it were one property, for example a garage or domestic worker's quarters. (Any such grouping shall be regarded as one residential property for rating purposes and for clearance application purposes);

- For the following properties identified below, *section 9* of the MPRA may be applied if applicable at the discretion of the Municipal Valuer:
  - Owned by a shareblock company and used predominantly for residential purposes; or
  - A retirement scheme or life right scheme used predominantly for residential purposes; or
  - A hostel used predominantly for residential purposes; or
  - A block of flats used predominantly for residential purposes; or
  - A residence used for residential purposes situated on property used for or related to educational purposes.
- For the sake of clarity, the following properties are specifically excluded from the definition:
  - residential apartments that form part of a hotel rental pool and are not being used as a primary place of residence for residential purposes;
  - guest house / bed and breakfast; and
  - any vacant land irrespective of its zoning or intended usage;

**"Residential purposes"** in relation to the use of the property means improved properties where people reside as their primary place of residence;

**"Supplementary Valuation / SV"** means the updating of the valuation roll whenever necessary as per *section 78* of the *MPRA*;

**"Systems Act"** means the *Local Government: Municipal Systems Act, 32 of 2000*;

**"Unproductive vacant land"** means land with no development potential and which is likely to attract no more than a nominal value. It includes properties that are lanes, stairs, slivers of land and small irregularly shaped pieces of land that cannot be developed. It can also sometimes include strips of land bordering rivers, as well as road reserves upon which roads that have not been constructed (excluding roads). If the unproductive vacant land is registered in the name of the owner of the adjoining/adjacent developed property, these parcels of land will be treated as part of the adjoining/adjacent developed property and will be rated accordingly;

**"Valuation Roll"** means a general valuation (GV) roll prepared in terms of *section 30* of the *MPRA* or a supplementary valuation (SV) roll prepared in terms of *section 78* of the *MPRA*;

**"Vacant Land"** means a property without any improvements, buildings or structures, as determined by the Municipal Valuer. Properties that are used as cemeteries will not be treated as vacant land;

**"Youth Development"** means a property used for extra mural youth development (including organisations such as the Scouts, Girl Guides, Voortrekkers or organisations the Municipal Valuer deems to be similar).

## 1. Legislative Context

In terms of *Section 229* of the *Constitution of the Republic of South Africa*, a municipality may impose rates on property.

In terms of *Section 4(1)(c)* of the *Systems Act*, a municipality has the right to finance the affairs of the municipality by imposing, *inter alia*, rates on property.

In terms of *Section 2* of the *MPRA*, a metropolitan or local municipality may levy a rate on property in its area.

This Policy is adopted in terms of *Section 3* of the *MPRA.*

This Policy must be read together with, and is subject to the provisions of and the regulations of the *MPRA* and the *Rates By-Law*.

In terms of the *MPRA*, the City allows for certain exemptions, reductions and rebates based on the ownership of properties.

The City's Rates Policy must be adopted on an annual basis to ensure compliance with the City's strategic objectives and with the applicable legislation.

This Policy is prepared in order to support the Municipal budget in accordance *with Regulation 7 of the MFMA* namely the *Municipal Budget and Reporting Regulations*.

## 2. Guiding Principles

The City's Rates Policy (herein after referred to as “the/this Policy”) is based on the following guiding principles:

- equity;
- affordability;
- poverty alleviation;
- social and economic development;
- financial sustainability; and
- cost efficiency.

As provided for in the *MPRA*, the City has chosen to differentiate between various categories of property and categories of owners of property. Some categories of property and categories of owners are granted relief from rates. However, the City does not grant relief in respect of payments for rates to any category of owners or properties, other than by way of an exemption, reduction or rebate provided for in this Policy, or to owners of properties on an individual basis.

## SECTION B - MUNICIPAL PROPERTY RATES

## 1. Categories of Property

In accordance with Section 8 of the MPRA, the City levies different rates on different categories of properties which are determined according to the use of the property.

The City has identified the following categories of property in accordance with section 8 and 93A of the Act: -

a) Residential properties;
b) Business and commercial properties;
c) Industrial properties;
d) Agricultural properties – any agricultural property not used for bona fide farming will not fall within this category;
e) Mining properties;
f) Properties owned by an organ of state and used for public service purposes.
g) Public Service Infrastructure properties;
h) Properties owned by Public Benefit Organisations and used for specified public benefit activities;

i) Properties used for multiple purposes - In cases where the Municipal Valuer considers it reasonable to apply this category, properties which are used for multiple purposes and thus fall within different categories of properties, an apportionment of value for each distinct use of the property must be calculated by the Municipal Valuer and used for billing at the appropriate and applicable rate(s);
j) Vacant land;
k) Cemeteries and Crematoria;
l) Properties owned by an organisation – not for profit and used for animal shelters;
m) Properties owned by an organisation – not for profit and used as an early childhood development facility;
n) Properties owned by an organisation – not for profit and used for youth development;
o) Properties owned by an organisation – not for profit and used as accommodation for the vulnerable;
p) Properties owned by an organisation – not for profit and used as a local community museum;
q) Properties owned by an organisation – not for profit and used for an old age home;
r) Properties owned by an organisation – not for profit and used exclusively for amateur sport;
s) Properties owned by a Social Housing Regulatory Authority accredited Social Housing Institution and used for social housing;
t) Properties owned by war veterans' associations and used for the welfare of war veterans;
u) Nature conservation land.

## 2. Criteria for Applying Different Levies for Different Categories of Properties

The rate charged as an amount-in-the-rand for Residential Properties is the base rate and the rates charged in respect of all other categories of properties are reflected as ratios to the residential rate. The criteria for applying different ratios are as follows:

- **Industrial, Commercial, Vacant, Mining Properties**
  The ability of owners to recover part of their costs via lower income tax and the ability to recover such costs from their own customers supports the rate differentiation. These property categories will be rated at double the residential property rate-in-the-rand.

- **Agricultural Property**
  The *MPRR on Rate Ratio* prescribes that Agricultural properties are to be rated at 1:0.25 to the residential rate, however the City may rate the agricultural property at any ratio of choice below the prescribed rates ratio of 1:0.25.

Taking into account the limited rate-funded services supplied to such properties in general, the contribution of agriculture to the local economy, the extent to which agriculture assists in meeting the service delivery and development obligations of the City, and the contribution of agriculture to the social and economic welfare of farm workers, the City determines the rates ratio for agricultural property at 1:0.20.

- **Properties owned by an Organ of State and used for public service purposes**
  Ratepayers contribute to the national *fiscus* through various national taxes for national and provincial government to provide the services set out in the definition of public service purpose.

  In addition, the MPRA already provides relief in respect of public service infrastructure. Therefore, properties owned by an organ of state and used for public service purposes should not receive any further benefit and the ratio will be twice the residential rate.

- **Public Service Infrastructure (PSI)**
  In terms of the MPRA, the rates ratio for PSI property is 1:0.25.

- **Properties owned by Public Benefit Organisations (PBOs) and used for specified public benefit activities**
  The *MPRR on Rate Ratios* stipulates that property owned by PBOs and used for a specified public benefit activity listed in item 1(Welfare and humanitarian); item 2 (Health care); and item 4 (Education and development) of Part 1 of the *Ninth Schedule to the Income Tax Act, 58 of 1962*, will be rated at no more than 25% of the residential property rate-in-the-rand. The City recognises the important role that PBO's play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

  These properties will receive a rates ratio of 1:0.25

  All other property owned by PBOs that do not fall within the definition outlined in the *MPRR*, will be rated at the *business and commercial* rate.

- **Cemeteries and Crematoria**
  Properties used primarily as a cemetery or a crematory will receive a rates ratio of 1:0 Cemeteries will not be treated as vacant land and such usage will not attract availability charges in accordance with the Tariff Policy.

- **Properties owned by an organisation – not for profit and used for animal welfare**
  The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

  These properties will receive a rates ratio of 1:0.

- **Properties owned by an organisation – not for profit and used as an early childhood development facility**
  The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

  These properties will receive a rates ratio of 1:0.25

- **Properties owned by an organisation – not for profit and used for youth development**
  The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

  These properties will receive a rates ratio of 1:0.25

- **Properties owned by an organisation – not for profit and used as accommodation for the vulnerable**
  The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

  These properties will receive a rates ratio of 1:0.25

- **Properties owned by an organisation – not for profit and used as a local community museum**
  The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

  These properties will receive a rates ratio of 1:0.

- **Properties owned by an organisation – not for profit and used for an old age home**
  The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

  These properties will receive a rates ratio of 1:0.25

- **Properties owned by an organisation – not for profit and used exclusively for amateur sport**
  The City recognises the benefit that amateur sport plays within society**.** In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

  These properties will receive a rates ratio of 1:0.25

- **Properties owned by a SHRA-accredited Social Housing Institution and used for social housing**
  The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a reduced rates burden assists these organisations in meeting their objectives.

  Properties registered in the name of a SHRA-accredited Social Housing Institution must provide at least 60% of the residential units on the property to house tenants whose gross monthly income is less than the maximum and it is spread within the income bands range (R1,500-R15,000/month) determined by SHRA guidelines and regulations

  These properties will receive a rates ratio of 1:0.25

The Social Housing Institutions must apply on an annual basis and provide the income bands of all their tenants to the satisfaction of the Director: Revenue.

If more than 40 % of a property houses tenants whose gross monthly household income exceeds the aforementioned income limit, then such property will not qualify for this category.

Non-Residential Properties of such institutions do not fall within this category

- **Properties owned by war veterans' associations and used for the welfare of war veterans**
  The City recognises the important role that non-profit organisations play in the social and economic well-being of the communities that they operate in. In line with the strategic IDP priorities of a safe and caring city a lesser rates burden assists these organisations in meeting their objectives.

  These properties will receive a rates ratio of 1:0.25

- **Nature conservation land**
  Private land owners who conserve land through voluntary conservation stewardship ease the burden on the City and other conservation organisations as the land is added to the overall conservation estate but it need not be purchased by an Organ of State. In addition, the costly ecological management of these sites, in particular alien and fire management are conducted by the landowner as per an approved Environmental Management Plan.

  These properties will receive a rates ratio of 1:0

- **Rates Ratios**

## 3. Exemptions, Reductions and Rebates

The City may, in terms of the criteria set out in this Policy, exempt a specific *category of owners* of properties, or the owners of a specific *category of properties*, from the payment of a rate levied on their property; *or* grant to a specific *category of owners* of properties, or to the owners of a specific *category of properties*, a rebate *or* reduction in the rates payable in respect of their properties.

To avoid fruitless and wasteful expenditure, the City will not levy a rate on any private road or any other property where the market value of the property is equal to or less than R50 000 or such other amount as determined by Council from time to time. This clause will not apply when other service charges (including availability charges) or an additional rate in respect of property situated in a special rating area (as contemplated in *section 22* of the *MPRA* and the *Special Rating Area By-law and Policy*) are billed to that property nor will it apply to any units in a sectional title scheme.

In accordance with *section 15(3)* of the *MPRA*, the Municipal Manager of the City will annually table in the Council of the Municipality a:

- List of all exemptions, reductions and rebates granted by the City during the previous financial year; and
- Statement reflecting the income of the City foregone during the previous financial year by way of such exemptions, reductions and rebates.

## 4. Rates Relief Applicable to the Category of Properties

REDUCTION:

- **Residential Property**

As an important part of the City's indigent relief measures aimed primarily at alleviating poverty amongst those persons owning low-value properties, the City will not levy a rate on the balance of the market value up to a maximum amount of R285 000.00 in respect of residential properties-assigned in the Valuation Roll.

If more than 40% of the extent of a house or the sectional title is being used for purposes other than residential purposes, these properties do not qualify for the residential rebate.

## 5. Categories of Owners of Properties

The City has determined the following categories of *owners of property* for the purpose of exemptions, rebates and reductions in accordance with *section 15 (2)* of the *MPRA*.

- **Indigent**
  In terms of *sections 3(3)(f)* and *15* of the *MPRA* all indigent owners, for rating purposes, will qualify in respect of their primary place of residence for the benefits as set out in this policy and Chapter 4 of the *Credit Control and Debt Collection By-Law and Polic*y. Indigent owners may also qualify for the 100% rebate if the applicant is dependent on pension or a social grant for their livelihood on condition that all other criteria remain applicable. The cumulative rebate shall not exceed 100%.

- **Owners who are dependent on Pension or Social Grants for their livelihood**
  In order to qualify for a rebate, this category of owners must meet the following criteria:
  a) be a natural person;
  b) be dependent on a pension or social grant for their livelihood - the dependency on pension or social grants is not a sole dependency but there must be a dependency to some degree. At the discretion of the CFO, an owner, applying for the pension rebate, who is still economically active may be considered for the rebate if all the other criteria set out in the paragraph are met and they are not yet dependent on a pension;
  c) the property must satisfy the requirements of the definition of Residential Property;
  d) be the registered owner of the Residential Property; and
  e) on 1 July of the financial year:
     i. occupy the property as his/her primary place of residence, provided that where the owner is unable to occupy the property due to no fault of his/her own, the spouse or partner or children (including minor children) may satisfy the occupancy requirement;
     ii. With regards to owners who are dependent on pensions, the applicant must be at least 60 years of age; or if the owner turns 60 during the year the rebate will be granted on a pro rata basis from the date on which the applicant turned 60;
     iii. be in receipt of a gross monthly household income not exceeding R17 500 (seventeen thousand five hundred Rand) and proven by the submission of the minimum of three months bank statements from all financial institutions or, if the person does not have a bank account, such proof as the City may require to substantiate the person's level of gross monthly household income.

A *usufructuary* or *habitatio* (right of habitation) or an executor or administrator of a deceased estate will be regarded as an owner. The applicant must produce an Affidavit or a letter from the Master of the High Court or suitably endorsed Title Deed or addendum to the Title Deed to substantiate the appointment.

The criteria of a natural person may be waived at the discretion of the CFO to allow for a property owned by:

- A trust where at least one beneficiary meets all the other criteria; provided that the gross monthly household income of the persons normally residing on that property be added to the gross monthly household income of all beneficiaries, which income may, collectively, not exceed R17 500.

- A Close Corporation (CC) where the total number of members meets all of the other criteria; provided that the gross monthly household income of the persons normally residing on that property be added to the gross monthly household income of all members, which income may, collectively, not exceed R17 500.

- Multiple owners where at least one co-owner meets all of the other criteria; provided that the gross monthly household income of the persons normally residing on that property be added to the gross monthly household income of the co-owners of that property, which income may, collectively, not exceed R17 500.

The criteria of registered owner (per the Deeds Office) may for the purposes of granting exemptions, rebates and reductions be waived at the discretion of the CFO to allow the holder of a share or the holder of a life right and who occupies that property which that person has the right to occupy and such person is responsible for the payment of the rates in terms of their right to occupy, to allow that owner and occupant to apply for this rebate (subject to all the other applicable criteria).

Owners must apply for the rebate in the year when a new GV or SV, as the case may be, are implemented. Applications made when a new GV is implemented must be received by the City by 31 August of the financial year when the GV will be implemented. Applications made when a SV is implemented, must be received by the City by the last day of the third month following the implementation date of the SV, failing which no such rebate may be granted for those financial years.

Where there is a change in the gross household income, the owners must apply for the rebate within three months of the change, failing which no such rebate will be granted for that financial year.

Approved rebate applications will remain valid until the next GV, SV or until a change to the gross household income of those properties are implemented. An owner is required to immediately inform City should the gross monthly household income change.

Any owner who, meets all the other criteria may apply to receive the rebate from the date of receipt by the City of the application for the remainder of the validity of that GV, where after all the criteria set out above will apply to applications for rebates in subsequent financial years.

If the gross monthly household income changes substantially as a result of the spouse/partner passing away the surviving spouse/partner may apply for the rebate to be adjusted from the date of death.

Where a couple qualifies for a rebate in terms of this paragraph and one passes away and the surviving spouse/partner does not qualify in terms of age / social grant criteria, the rebate may be retained for a period of 12 months from the date of death on condition that the surviving spouse meets the other criteria mentioned herein.

Where a ratepayer qualifies for a rebate in terms of this paragraph and passes away, leaving only a child headed household where the child does not qualify in terms of age or does not receive a social grant, the rebate will be retained for a period of 12 months from the date of death on condition that the other criteria mentioned herein are met.

On application, the gross monthly household income will be rounded off to the nearest rand in order to determine the percentile rate applicable.

The percentage rebate granted to different gross monthly household income levels will be determined according to the schedule below.

| **Gross Monthly Household Income** | | **% Rebate** |
|---|---|---|
| R 0 | R 4 500.00 | 100% |
| R 4 501.00 | R 6 000.00 | 95% |
| R 6 001.00 | R 7 500.00 | 90% |
| R 7 501.00 | R 9 000.00 | 80% |
| R 9 001.00 | R 10 500.00 | 70% |
| R 10 501.00 | R 12 000.00 | 60% |
| R 12 001.00 | R 13 500.00 | 50% |

| | | |
|---|---|---|
| R 13 501.00 | R 14 500.00 | 40% |
| R 14 501.00 | R 15 500.00 | 30% |
| R 15 501.00 | R 16 500.00 | 20% |
| R 16 501.00 | R 17 500.00 | 10% |

Any late applications or deviations from the ownership, occupancy, registration or usage requirements for an exemption, rebate and reduction must be motivated in writing to the CFO and will be dealt with at the discretion of the CFO or his/her nominee, taking account of any factors which he/she deem to be relevant, including, but not limited to considerations of fairness and equity. The CFO or his/her nominee has the right to conduct a full credit check or financial analysis on any person, organization or institution applying for any benefit in terms of this policy.

Should a property owner not be satisfied with the outcome of an application for a rebate in terms of this policy, he/she may lodge an appeal in terms of *section 62* as read with *section 95(f)* of the *Local Government Municipal Systems Act 32 of 2000*.

**Owners of property situated within an area affected by any other serious adverse social or economic conditions**

At the future discretion of the City, owners of properties may be granted a rebate as a result of the Covid-19 pandemic where serious adverse social and economic conditions prevail.
The rebate will only be granted in terms of conditions to be determined by the Municipal Council. If the Municipal Council does determine the conditions for the rebate, the financial implications in respect of income foregone must be taken into account and reflected in an Adjustment Budget.

## SECTION C – GENERAL

### 1. Impermissible Rates

The City will not levy a rate on the properties mentioned in sections 17 of the MPRA.

### 2. Liability for Rates

A property rate is a debt in respect of taxation in terms of *section 11* of the *Prescription Act 68 of 1969,* and the City can recover rates in arrear for a period of up to 30 years.

The due date for payment of rates in terms of *sections 26(2)(a) and (b*) and *78(4)* of the *MPRA* means the date reflected on a municipal invoice as the final date on which payment is due and payable.

Liability for the payment of rates is further governed by the *MPRA* and the *City's Credit Control and Debt Collection* By-Law and Policy.

Rates which are recovered by the City on an annual or a monthly basis, are payable on or before the due date stipulated in the account sent to the ratepayer and payable in full on or before the due date and interest will be charged on rates that are in arrears.

A ratepayer remains liable for the payment of the rates whether or not an account has been received and if an account has not been received, the ratepayer makes the necessary inquiries from the City to establish the amount due for the rates and to pay that amount to the City.

### 3. Multiple Owners

The City of Cape Town will not split a municipal account as a result of multiple ownerships and will hold the owners jointly and severally liable for payment.

### 4. Interest on Overdue Accounts

Interest shall be raised on overdue accounts as determined in the Credit Control and Debt Collection By-Law and Policy.

### 5. Effects of reviews, objections and appeals on liability for payment

The lodging of an objection, a review or an appeal in terms of *sections 50, 52 and 54* of the *MPRA* does not defer liability for the payment of rates.

## 6. City Owned Properties

City owned properties leased to third parties will also be rated, except for the City public-rented stock (primarily state-subsidised rental houses).

A purchaser, in the case where a property was sold by the City and of which possession was given to the purchaser pending registration of ownership in the name of the purchaser at a later date, will be liable for the payment of rates.

## 7. Supplementary Valuation (SV) Effective Date

The effective date in respect of a supplementary valuation will be conducted in accordance with section 78 of the MPRA.

## 8. Adjustment of Rates prior to SV

Rates raised as a charge based on an administrative error in a previously certified Valuation Roll can be written back with the authority of the CFO.

If the owner of a freehold property which has been subdivided after the last general valuation wishes to sell one or more of the erven which have been subdivided off the parent erf, as the case may be, applies to the City for a clearance certificate in terms of *section 118* of the *Systems Act* and if the City has not yet included such valuation of the relevant property(ies) in a SV, the City shall provide an apportionment of values of the relevant property(ies) for purposes of a clearance certificate.

*This paragraph will not apply to Developers in respect of Sectional Title Schemes.*

## 9. Identification and Quantification of Costs and Benefits

The cost to the City and benefit to the local community of exemptions, rebates, and reductions are reflected in the City's budget.

## 10. Hanging and Holding Properties

For the purposes of creating a single account for properties forming one economic entity, specific contiguous properties may be treated as one property on the valuation roll, i.e., one valuation for a number of contiguous properties. The holding property as well as the hanging properties will be reflected on the roll but the valuation will only be reflected against the holding property.

Properties may be created as one economic entity in terms of the following rules:

a) Properties must be in the same ownership;
b) A building(s) forming an economic entity must straddle all the contiguous erven as if they were consolidated;
c) All municipal services must be linked to the property reflecting the total municipal valuation of the erven treated as being consolidated;
d) A contiguous property with no economic viability or development potential and which is likely to attract no more than a nominal value, e.g. irregularly shaped or small pieces of land that cannot be optimally developed, small uneconomic land extensions for swimming pools or gardening, lanes, stairs, slivers of land bordering rivers, as well as road reserves may be treated as a hanging property even though the requirements of paragraph (b) are not met;
e) Contiguous pieces of agricultural land which are being farmed as one economic entity will also qualify should the other requirements (excluding b) be met;
f) Parking on a separate erf that is essential for the viability of the economic unit; and
g) Sports fields that may or may not be contiguous to a school but form an essential component of the school may be treated as an economic unit.

The Municipal Valuer will, in his/her discretion, decide which properties should be treated as one economic entity in terms the above and whether the properties should be combined as hanging and holding.

## SECTION D – SPECIAL RATING AREAS

### Special Rating Areas

The Council may by resolution from time to time determine special rating areas as envisaged in *section 22 of the MPRA* and levy additional rates on properties in areas for the purpose of raising funds as contemplated in the said section and the Council has adopted a By-law and policy to regulate the implementation of such special rating areas.

## SECTION E – COUNCIL RESOLUTIONS EFFECTING THE LEVYING OF RATES

### Special Council Resolution (SPC 07/05/16) dated 30 May 2016

NOTE:

Council Special Council Resolution (SPC 07/05/16) dated 30 May 2016 states:

*(a) The Rates Policy 2016/17 be amended with the insertion of:*

> *"5.21 Owners of properties in the Diep River Housing Rental Estate who have taken ownership in terms of agreement with the former South Peninsula Municipality and the Steurhof Restitution of Tenancy Rights Committee, and who were evicted lessees in terms of the Group Areas Act are exempted from rates for the first ten years of ownership, calculated from the date of registration in their name. The exemption applies to the owners, heirs, dependants or spouse and lapses upon alienation of the property by the owner, heirs, dependants or spouse. After the ten years the compulsory phasing in of rates are applicable in terms of 21 of the MPRA."*

*(b) that the Steurhof Lease Claimants be exempted from rates as per Section 5.21 of the Rates Policy 2016/17*

# CITY OF CAPE TOWN
# 2020/2021 TARIFFS, FEES AND CHARGES

**PREAMBLE**

The purpose of the Tariffs, Fees and Charges book is to outline fees, charges or tariffs in respect of any function or service to the local community which a municipality may set, and includes a surcharge on such tariff.

ALL TARIFFS ARE EFFECTIVE FROM 1 JULY

All Miscellaneous and Consumptive tariffs include VAT except
Fines, Penalties, Refundable Deposits, Housing and Contracted road-based public transport which are exempt from VAT

**Tariffs are determined in terms of:**

The Local Government Municipal Finance Management Act 56 of 2003

**KEY TO COST RECOVERY CATEGORIES:**

| | |
|---|---|
| PARTIAL COST RECOVERY (PCR) | Where tariffs are set to recuperate, at least in part, the costs of products or services that provide benefits to the users to encourage local economic development e.g. Informal Trading |
| SUBSIDISED (S) | Where one group of users pay more than the costs of the goods/services that they receive, and the 'surplus' is used to offset the cost of goods/services provided to other users within the same service e.g. Electricity (Lifeline); Water & Sanitation (Domestic Full - Step 1 & 2); Solid Waste (240L Container Service) |
| SOCIAL BENEFIT (SB) | Where tariffs are set at affordable levels which encourages usage and does not cover the cost of products or services (neither partially nor fully) but provides benefits to low income users e.g. pauper burials/cremations |
| MARKET RELATED (MR) | Where tariffs are set at a level to ensure financial sustainability of the service e.g. Electricity (Large Power Users) |
| FULL COST RECOVERY (FCR) | Where tariffs are set to recuperate all costs associated with specific products or services. Full cost represents the value of all the resources used or consumed in the provision of the product or service. In addition to the costs directly associated with these, full cost includes an appropriate allocation of indirect (including capital) costs. |

| FCR | **Call Centre Agent** | Per user licence per month or per month pro-rata where a full month does not apply | A Basic call center is designed to support a simple call distribution and queuing scenario, such as a front-office receptionist or a small work group. Inbound calls are distributed based on the agent's line state and "join" status. Callers receive appropriate entrance and queue messages, and calls can overflow to alternate locations if they wait too long in queue or if the queue is beyond capacity. Any user with a call center license can be assigned to a Basic call center. This type of call center does not support Agent ACD states, BroadWorks Agent client, or Reporting. Includes a monthly TMS cost report per user licence. Subject to availability. | 600.00 | 690.00 | y | 600.00 | 690.00 | 0.00% |
| FCR | **Call Centre Supervisor** | Per user licence per month or per month pro-rata where a full month does not apply | A user who is assigned to be a supervisor for a BroadWorks Call Center can have two roles, that of a team lead and that of a supervisor. In each case, the user is assigned to be a supervisor for a call center and is assigned to supervise a specific list of agents. Any user in the group or enterprise can be assigned to be a supervisor of a call center. No call center user license is required for a supervisor, except for the BroadWorks Supervisor license (to use the BroadWorks Supervisor client). However, it is recommended that supervisors have the equivalent of a Premium Enterprise feature set assigned to them. | | 4 | **SHARED-NETWORK CHARGE (SNC)** | | SNC for residential customers is calculated using the group-diversified maximum demand of the property in accordance with guidelines based on the principles of SANS 507-1. | | | | | | |
| | | | | In the case of a group housing development or block of flats, SNC is calculated on the sum of the group-diversified maximum demands of all the units plus the undiversified authorised capacity of the general supply, irrespective of the size of the bulk supply. | | | | | | |
| | | | | For commercial/industrial customers SNC is calculated on the authorised capacity for new connections and on the increase in authorised capacity for supply upgrades. | | | | | | |

| | | | **SPECIAL CONDITIONS** | | | | | | | | | | |
| | | | The booking, for fund raising and commercial purposes, of resorts, ~~swimming pools~~, coastal facilities, parks or sections thereof, where traditionally high volumes of communities make use of such facilities during season and public holidays, is not permitted. This prohibition is applicable particularly where such organisations, individuals or entities will exclude the general public from making use of the facilities and/or where an entrance fee is applicable. Events and activities formally supported by the City are not affected | | | | Swimming pools deleted as the statement contradicts the exclusion clause for swimming pools as bookings for such events are not accepted at swimming pools. | | | | | |
| | | | **EXCLUSIONS** | | | | | | | | | | |
| | | | **Functions: After-hours at swimming pools** | | | | | | | | | | |
| | | | No bookings are accepted for private after-hours functions in or out of season, due to operational as well as occupational health and safety risk considerations. | | | | | | | | | | |
| | | | Filming: No filming bookings can be accepted during peak season school or public holidays, where the acceptance of such booking will inhibit public access to the facility. | | | | | | | | | | |

| | | **SPECIAL CONDITION** | | | | | | | | | | | |
| | | The booking, for fund raising and commercial purposes, of resorts, coastal facilities, parks or sections thereof, where traditionally high volumes of communities make use of such facilities during season and public holidays, is not permitted. This prohibition is applicable particularly where such organisations, individuals or entities will exclude the general public from making use of the facilities and/or where an entrance fee is applicable. Events and activities formally supported by the City are not affected | | | | | | | | | | | |
| | | **EVENTS** | | | | | | | | | | | |
| | | Event application may not be processed or allocated an Event Organiser reference number without venue confirmation letter by the venue owner. Events may only proceed upon receipt of events permit obtainable from Events Office. Conditions of hire for sportsfields as well as consideration of facility user priority are applicable upon consideration of events permit. In addition to a deposit being charged, the Event Organiser must sign a consent form which obliges the Event Organiser full responsibility and accountability for field damages caused by the event. Event Organiser is liable for cost of post event reinstatement where applicable. | | | | | | | | | | | |
| | | No parking allowed on Green Point Common fields during events to preserve fields for high sporting demand | | | | | | | | | | | |
